

MKONO GLOBAL
EXECUTION AS A SERVICE

Mkono Global

Organizational Architecture

The complete structure of how Mkono Global is organized — two divisions, one purpose, and why every promise to the customer is an operational promise.

The Customer Relationship Division builds confidence before the execution begins.
The Execution Operations Division protects that confidence until the execution is successfully completed.

WHAT THIS DOCUMENT CONTAINS

- 01 Organizational Structure — The Two Divisions
- 02 Customer Relationship Division (Mkono Global LLC — USA)
- 03 Execution Operations Division (Mkono Global Kenya Ltd)
- 04 The Seven Promises — Which Division Delivers Each
- 05 The Relationship Between the Two Divisions

SECTION 01

Organizational Structure

Mkono Global operates through two distinct legal entities, each with its own purpose, responsibilities, and geography. They share the same brand, the same standards, and the same commitment to the customer. They do not share responsibilities — each division owns its domain completely.

This structure exists because the work is different. The Customer Relationship Division speaks to diaspora clients living in the USA, UK, and Canada. The Execution Operations Division operates on the ground in Kenya, executing tasks on those clients' behalf. Different geography. Different activities. One shared standard.

SECTION 02

Customer Relationship Division

DIVISION

Customer Relationship Division

Mkono Global LLC · United States of America

"Build trust with the diaspora community and represent the Mkono Global brand."

The Customer Relationship Division is the face of Mkono Global to the diaspora. Its role is to build the confidence that brings a client to their first order — and to maintain the relationship that brings them back for every order after. It does not execute. It does not manage the ground operation. It introduces, nurtures, and escalates when necessary.

Core Responsibilities

DIASPORA RELATIONSHIP MANAGEMENT

- 2 Build long-term relationships with diaspora clients
- 2 Represent the Mkono Global brand in the diaspora
- 2 Support clients with needs beyond active execution requests
- 2 Become the trusted point of contact for the diaspora community

BUSINESS DEVELOPMENT

- 2 Partnerships with diaspora organisations and platforms
- 2 Community engagement and brand presence
- 2 Referral growth programmes
- 2 Marketing campaigns and brand advertising

INFRASTRUCTURE & INNOVATION

- 2 Improve systems based on Operations Division feedback
- 2 Build automation for repetitive business processes
- 2 Improve internal infrastructure
- 2 Develop new customer-facing capabilities

CUSTOMER ESCALATIONS

- 2 Acts as first human point of contact when an issue cannot be resolved through the Mkono Global Conversational Interface, WhatsApp Business Platform, or automated systems

CRITICAL BOUNDARY

The Customer Relationship Division does NOT own execution. It does not direct the ground operation. It does not manage beneficiaries. It does not communicate execution status — that is the responsibility of the Execution Operations Division, which knows exactly what is happening at every moment.

SECTION 03

Execution Operations Division

DIVISION

Execution Operations Division

Mkono Global Kenya Ltd · Kenya

"Transform every approved execution request into a completed execution — delivering verified proof to the client abroad and dignified service to the beneficiary at home."

The Execution Operations Division is where the Mkono Global promise is kept. Every execution task — from the moment the request arrives to the moment the client receives verified proof — is owned entirely by this division. It communicates with customers during execution because it is the only division that knows exactly what is happening.

Everything described in the Mkono Global Operating Architecture belongs here: the Execution Intelligence Engine, Operations Memory, the Document Engine, ground operations, evidence collection, and execution completion. The Execution Operations Division is Mkono Global at work.

Division Responsibilities

CLIENT COMMUNICATION

- 2 Customer Conversational Interface management
- 2 WhatsApp Business communications
- 2 Execution progress updates to the client
- 2 Beneficiary communication and coordination
- 2 Beneficiary updates and call of action delivery
- 2 Customer status notifications throughout execution

This division communicates with customers during execution because it knows exactly what is happening.

EXECUTION INTELLIGENCE

- 2 Execution Request receipt and intake
- 2 Execution Planning across all seven operational dimensions
- 2 Execution Brief creation and approval workflow
- 2 Execution Record creation and management
- 2 Operational Memory management
- 2 Risk assessment and gap identification
- 2 AI-assisted planning and preparation
- 2 AI-assisted document auditing

Supported by Mkono Global AI.

FINANCIAL PROTECTION

- 2 Payment verification and confirmation
- 2 M-Pesa transaction verification
- 2 Prompt clarification on payment discrepancies
- 2 Fraud prevention and detection
- 2 Financial reconciliation when required

Directly tied to Promise 3 (Every shilling accounted for) and Promise 4 (Zero misdirected payments).

GROUND OPERATIONS

- 2 Procurement of items and services
- 2 Logistics and delivery coordination
- 2 Supplier identification and coordination
- 2 Government office coordination
- 2 Field team deployment and coordination
- 2 Beneficiary coordination and communication

QUALITY & EVIDENCE

- 2 Evidence collection for every execution task
- 2 Receipt verification and documentation
- 2 Photo and video documentation
- 2 Timestamp verification
- 2 Quality assurance before execution closes
- 2 Execution auditing and review

This is what makes Mkono Global different. Directly fulfills Promise 1: You will always receive proof. Not a message. Not a phone call. Evidence.

EXECUTION COMPLETION

- 2 Execution Completion Letter preparation
- 2 Evidence Package compilation and delivery
- 2 Completion Report to client via WhatsApp
- 2 Execution Request formal closure
- 2 Operational Memory update
- 2 AI Knowledge Base update from closed record

SECTION 04

The Seven Promises — Which Division Delivers Each

The Seven Promises are not marketing language. They are operational commitments — each one is kept or broken during execution. That is why nearly every promise belongs to the Execution Operations Division. The Customer Relationship Division introduces customers to Mkono Global. The Execution Operations Division keeps every promise that was made to them.

#	Promise	Owned and Delivered By
1	You will always receive proof. Not a message. Not a phone call. Evidence. Every order ends with a photo, receipt, or timestamped confirmation.	Execution Operations Division Quality & Evidence
2	If a health need arises, we act first. We will never leave someone unwell because it was not in the invoice. Medical judgment on the ground, every time.	Execution Operations Division Ground Operations
3	Every shilling you send is accounted for. To the last unit. No rounding. No absorption. Full financial documentation.	Execution Operations Division Financial Protection
4	We verify every payment before it is sent. Zero misdirected payments. Ever. M-Pesa verified against business name before a single shilling moves.	Execution Operations Division Financial Protection
5	We will never promise speed at the cost of getting it right. Three-day execution window. 100% success rate because we do not cut corners.	Execution Operations Division Ground Operations
6	You will hear from us. You will not be left wondering what is happening. Real updates from a real person throughout execution. The 2am silence ends here.	Execution Operations Division Client Communication
7	The person receiving your support will be treated with dignity. Always. Every document, every interaction, every delivery treats the beneficiary as a person.	Execution Operations Division All Sub-Divisions

WHAT THIS TABLE SHOWS

All seven promises are operational promises. They are kept — or broken — during execution. The Execution Operations Division does not simply support the customer experience. **It IS the customer experience.**

SECTION 05

The Relationship Between the Two Divisions

The two divisions are not competitors for the same work. They are partners in the same promise, operating at different stages of the same journey.

CUSTOMER RELATIONSHIP DIVISION

Creates trust.

Reaches the diaspora client before they have ever placed an order.
Introduces them to Mkono Global.
Earns their confidence. Converts that confidence into a first execution request. Then nurtures the relationship so they return.

EXECUTION OPERATIONS DIVISION

Protects trust. Earns it every day.

Receives the execution request. Plans it. Executes it. Documents it. Delivers verified proof to the client. Every order is a fresh test of every promise Mkono Global has ever made. This division passes that test — every time.

THE MKONO GLOBAL ARCHITECTURE IN ONE STATEMENT

The Customer Relationship Division builds confidence before the execution begins.

The Execution Operations Division protects that confidence until the execution is successfully completed.

One creates trust. The other fulfills it. Together, they deliver the experience your customers know simply as Mkono Global.
