

PREMIER DECISION SUPPORT — SERVICE FRAMEWORK

Before the money moves. We verify reality.

Mkono Global's traditional services begin after a customer has decided what needs to be done. Premier Decision Support begins one step earlier — before they commit their money, or when they cannot be physically present for a moment that matters. Both use the same engine. Both uphold the same promise.

"Before I spend thousands of dollars or make an important decision from abroad, can someone I trust verify reality for me?" That is exactly where Mkono Global belongs.

01 — THE PHILOSOPHY

One Step Earlier. Same Promise.

Most companies help customers after they have made a decision. Mkono Global now helps customers make better decisions **before they commit** — and shows up for them **when they cannot be there themselves**. This is not a new business. It is the same business applied one step earlier in the customer's journey.

OUR MISSION — UNCHANGED

You send money home. We make sure it does what it was supposed to do.

Premier Decision Support moves that promise one step earlier. Before money is sent, before a decision is made — Mkono Global verifies reality so the customer can act with confidence. The mission is the same. The moment of service is earlier.

HOW PREMIER DECISION SUPPORT PASSES THE MKONO GLOBAL TEST

Every service ends with **objective evidence**. Every service **respects the dignity of everyone involved**. Every shilling is traceable. And we would be comfortable if the client saw exactly what we did — because everything is observable, documented, and instructed by the customer.

02 — THE DECISION TEST

Every Service Must Pass Every Test

Clearly defined beginning and end

Completed in hours or days — not months

Ends with objective evidence

Does not require legal, financial or medical advice

Does not create conflict with beneficiaries or families

Does not require deception or surveillance

Uses public interaction or customer-
authorised representation

Protects the dignity of everyone
involved

Helps someone make an important
decision from abroad

Mkono Global never gives opinions
or recommendations

Never enters private spaces without
invitation

Never takes sides in family or
business matters

03 — TEAM SAFETY STANDARDS

Non-Negotiable. Every Assignment. Every Time.

ABSOLUTE RULES — NO EXCEPTIONS

- Team members visit **public areas only**. No private rooms, restricted areas, or spaces requiring special access.
- If asked to leave, they leave **immediately and professionally**. No argument.

- No hidden recording or covert photography. **All observation is open and public.**
- If a situation feels unsafe, the assignment is **paused and reported immediately.** No heroics.
- For Representation services: team members only **communicate what the client has written.** Nothing added.
- Every assignment has a **check-in protocol.** The team knows where the agent is at all times.

Decision Support — Help me decide

Pillar 1

Reduce uncertainty before major financial or personal commitments. The customer decides. Mkono Global verifies reality.

Promise 01: You will always receive proof. Not a message. Not a phone call. Evidence.

Diaspora Kenyans make significant financial decisions based on websites, WhatsApp messages, and recommendations from people they have not met in years. The gap between what is advertised and what exists on the ground is real and costly. Decision Support closes that gap with objective, ground-level evidence.

Airbnb Reality Check

DIASPORA MINDSET

"The pictures look beautiful but I'm arriving with my family. I want to know what it's really like."

WHAT MKONO OBSERVES — PUBLIC AREAS ONLY

- Building condition and general maintenance
- Neighbourhood environment and surroundings
- Road access, ease of entry and parking
- Noise levels and surrounding cleanliness
- General safety of surroundings

MISSION & VALUES CONNECTION

Airbnb photos show interiors. Mkono Global shows reality outside those walls — the neighbourhood, the access, the environment at ground level. This is **Proof Not Promises** applied to a decision the customer has not yet made. The customer receives objective evidence, not someone's opinion.

WHY DIASPORANS WILL PAY

A family flying from the USA for a two-week holiday risks thousands if the property does not match expectations. A verification fee is small compared to that risk — and the peace of mind is immediate.

Team never enters the unit. External and public areas only.

Evidence: Photos, short video, written observation report.

School Reality Check

PARENT MINDSET

"I'm about to spend thousands on my child's education. I need to know what I'm really paying for."

WHAT MKONO OBSERVES

- School grounds and general environment
- Public facilities — grounds, halls, fields
- Cleanliness and maintenance
- Meeting with admissions staff if welcomed
- Collection of available brochures

MISSION & VALUES CONNECTION

School fees are among the largest financial commitments Kenyan families make. A parent paying KES 300,000 per term from the USA deserves to see what that money is buying. No advice. No ranking. Just objective evidence from the ground.

WHY DIASPORANS WILL PAY

Parents often rely on one family member's recommendation. An independent visit by Mkono Global gives them a second source that has no relationship with the school and no reason to be anything other than objective.

No educational advice or ranking. Public areas only.

Evidence: Photos, video, brochures, written report.

Hospital Reality Check

FAMILY MINDSET

"My parent may receive treatment here. I need to know it's the right environment."

WHAT MKONO OBSERVES — PUBLIC AREAS ONLY

- Reception and public waiting area
- General cleanliness of public spaces
- Accessibility and ease of movement
- Staff interaction in public areas
- Parking and surrounding access

MISSION & VALUES CONNECTION

Health Before Budget is a core Mkono value. When a family member is ill in Kenya, the diaspora relative cannot visit. They rely on information from others. An independent public observation gives them something no family reassurance can — objective, verifiable evidence from the ground.

WHY DIASPORANS WILL PAY

This is not about medical opinion. It is about knowing the environment where a loved one will be cared for. That knowledge has real value to a family thousands of miles away.

No medical advice. No entry to treatment areas. Public only.

Evidence: Photos, video, written observation report.

Retirement Home Reality Check

FAMILY MINDSET

"I'm trusting this facility with someone I love. I cannot visit before making this decision."

WHAT MKONO OBSERVES

- Public environment and general atmosphere
- Cleanliness of common areas
- Accessibility and grounds condition
- Meeting with management if welcomed
- Available documentation and brochures

MISSION & VALUES CONNECTION

Placing an elderly parent in a retirement home from abroad, without visiting, is one of the most emotionally difficult decisions a diaspora family makes. This service directly honours **Protect the Relationship, Not Just the Transaction** — a core Mkono value that recognises the family member is a person, not a logistical problem.

WHY DIASPORANS WILL PAY

Objective evidence from a trusted source is irreplaceable when making this decision from abroad. It reduces guilt, reduces uncertainty, and gives the family something to stand behind.

No access to resident areas. Public areas only.

Evidence: Photos, video, written report, facility information.

Hotel Reality Check

TRAVELLER MINDSET

"Before I book for two weeks, I want someone to see what the website doesn't show."

WHAT MKONO OBSERVES — PUBLIC AREAS ONLY

- Lobby, reception and public areas
- Surrounding neighbourhood and access
- Parking and transport links
- General cleanliness of public areas
- Nearby amenities and services

MISSION & VALUES CONNECTION

Hotels in Kenya are not uniformly represented online. Booking platforms show curated images. Mkono Global shows the reality of the surroundings, access routes, and neighbourhood environment that no photo can capture — exactly what matters to a diaspora visitor arriving with family.

WHY DIASPORANS WILL PAY

A two-week visit is a significant investment. Knowing the real surroundings and access before booking reduces risk and eliminates the disappointment that damages trust in an entire trip.

No room access. Hotel rooms are not observed. Public areas only.

Evidence: Photos, video, public observations, written report.

Event Venue Reality Check

DIASPORA MINDSET

"We're planning a wedding from overseas. We need to know what the venue is really like."

WHAT MKONO OBSERVES

- Venue condition and general appearance
- Public facilities and accessibility
- Parking and guest access
- Surrounding area and environment
- Meeting with venue management if welcomed

MISSION & VALUES CONNECTION

Planning a wedding from abroad is one of the most stressful experiences for diaspora Kenyans. A venue deposit is significant. Seeing the venue through Mkono Global's eyes before committing removes the uncertainty that causes anxiety for months before the event.

WHY DIASPORANS WILL PAY

The emotional and financial stakes of a wedding are high. A professional, documented visit by someone with no stake in the outcome gives the couple confidence that is impossible to get any other way from abroad.

No private area access without express invitation from management.

Evidence: Photos, video, written report.

Intelligence & Verification — Help me know

Pillar 2

Independent verification of facts the customer has already been told — before committing money or trust.

Promise 04: We verify every payment before it is sent. Zero misdirected payments. Ever.

Sometimes a diaspora customer is not making a new decision. They have already received information from a supplier, contractor, family member, or organisation. They simply want independent verification from someone they trust. Mkono Global does not investigate anyone. We verify specific, observable facts — and return with evidence.

Supplier Reality Check

BUSINESS MINDSET

"Before I wire thousands of dollars, does this supplier actually exist and operate as described?"

WHAT MKONO VERIFIES

- Physical presence at stated location
- Observable business operations
- Meeting with representatives if welcomed
- Available public business information
- Photos of premises and operations

MISSION & VALUES CONNECTION

Verify Before You Pay is a founding Mkono value. Every M-Pesa payment Mkono has ever made was verified before a single shilling moved. This service extends that standard to the customer's own business decisions — zero assumptions, observable facts only.

WHY DIASPORANS WILL PAY

Business fraud targeting diaspora investors through fake suppliers is a real and growing problem. A physical verification before wiring money is one of the most practical protections available — and no amount of video calling or document sharing provides what a ground visit provides.

No audit, no guarantee, no endorsement. Observable facts only.

Evidence: Photos, video, written report, available documentation.

Charity & NGO Reality Check

DONOR MINDSET

"Before I donate, I want to know the organisation is real and doing what it says it does."

WHAT MKONO VERIFIES

- Physical presence at stated address
- Meeting with representatives if available
- Observable facilities and operations
- Collection of available public information
- Documentation of the visit

MISSION & VALUES CONNECTION

Charitable giving is deeply embedded in Kenyan diaspora culture. Diasporans give regularly to churches, community organisations, and social causes — often without the ability to visit. The ability to verify before giving protects both the donor and the relationship. No endorsement. Observable facts only.

WHY DIASPORANS WILL PAY

When someone is giving from the heart, they deserve to know their generosity is reaching a real organisation. A professional visit by Mkono Global gives that confidence without requiring the donor to fly home.

No endorsement or certification. Observable facts only.

Evidence: Photos, video, written report, collected materials.

Business Opportunity Reality Check

ENTREPRENEUR MINDSET

"Someone says this opportunity is amazing. I want to know if it's real before I commit anything."

WHAT MKONO VERIFIES

- Does the business physically exist?
- Observable public operations
- Meeting with representatives if welcomed
- Available documentation and materials
- Photos and written report

MISSION & VALUES CONNECTION

Business opportunity fraud targeting diaspora investors is one of the most common financial crimes in Kenya. Mkono Global applies its founding principle — **Verify Before You Pay** — to protect diaspora entrepreneurs before they commit any money. Not investment advice. Just ground-level reality.

WHY DIASPORANS WILL PAY

A physical verification before any commitment is a fundamental protection that no online research, no video call, and no document can replace. Mkono Global provides it with no stake in the outcome.

Not investment advice. No guarantee of legitimacy. Observable facts only.

Evidence: Photos, video, written report, collected materials.

Lifestyle Reality Check

DIASPORA MINDSET

"I'm thinking about relocating to Kenya. I need to know what life is actually like in this area — not what YouTube shows."

WHAT MKONO DOCUMENTS

- Traffic and commute conditions
- Shopping and everyday conveniences
- Road conditions and infrastructure
- Noise levels and neighbourhood atmosphere
- Public transport and schools nearby
- General environment at different times of day

MISSION & VALUES CONNECTION

Returning to Kenya after years abroad is one of the most significant decisions a diaspora Kenyan makes. YouTube videos and blogs are subjective and often aspirational. Mkono Global spends real time in the neighbourhood the customer is considering and returns with observable ground-level reality. No recommendation. Just what is actually there.

WHY DIASPORANS WILL PAY

This decision affects everything — career, family, finances, wellbeing. The cost of making the wrong relocation decision far exceeds any verification fee. Mkono Global gives the customer something they cannot get any other way without flying home.

No recommendation of where to live. Observable facts only.

Evidence: Photos, video, written day-in-the-life observation report.

Executive Coordination — Help me accomplish

Pillar 3

The customer knows what they need. Distance makes it impossible. Mkono Global makes it happen.

Promise 05: We will never promise speed at the cost of getting it right.

Buy Before You Fly

CUSTOMER MINDSET

"I'm coming to Kenya to buy furniture or equipment. I want to know prices and availability before I land."

WHAT MKONO DOES

- Visits relevant suppliers or stores
- Photographs available items with prices
- Collects current prices and brochures
- Documents availability and location details
- Compiles into a clear pre-arrival summary

MISSION & VALUES CONNECTION

The customer makes every purchasing decision. Mkono Global simply ensures it is made with complete, accurate, ground-level information rather than assumptions. **Use What Already Works** — existing stores, existing suppliers, existing infrastructure. Mkono accesses, verifies, and delivers the information.

WHY DIASPORANS WILL PAY

Saves days of shopping on arrival. Protects against inflated tourist pricing. The customer lands knowing exactly where to go and at what price — turning a stressful purchase trip into a confident one.

No purchasing on behalf of customer without explicit separate order.

Evidence: Photos, prices, brochures, written summary, location details.

Executive Research Assignment

CUSTOMER MINDSET

"I want to understand the private school landscape in Nairobi before I commit to any one institution."

WHAT MKONO DOES

- Visits publicly accessible locations
- Collects brochures and available materials
- Photographs public areas
- Gathers factual, observable information
- Compiles into a clear factual summary

MISSION & VALUES CONNECTION

Mkono never recommends. The customer makes every decision. The assignment is to gather factual, observable information from the ground — information that cannot be gathered from online research alone. **Every Shilling Accounted For** — the scope is clear, the output is defined, the evidence is objective.

WHY DIASPORANS WILL PAY

Replaces days of personal research. Provides ground-truth information. Mkono has no interest in any outcome — which makes the information more reliable than any recommendation from someone with a stake in the decision.

No recommendations. Factual, observable information only.

Evidence: Collected brochures, photos, written factual summary, contact details.

Pillar 4

Presence & Representation — Help me be there

Distance should never prevent someone from showing up for life's important moments.

Promise 07: The person receiving your support will be treated with dignity. Always.

Diaspora Kenyans miss moments that matter — not because they do not care, but because they cannot physically be there. Presence and Representation services allow Mkono Global to attend on behalf of the customer, deliver what they have prepared, represent them exactly as instructed, and return with evidence. **Note: Funerals and family meetings are not offered in Version 1** — these carry emotional complexity that cannot be managed within a defined brief.

REPRESENTATION RULES — ABSOLUTE STANDARDS

- Mkono Global **never speaks from its own opinion.** Only exactly what the customer has written is communicated.
- Team members **never improvise, add to, or interpret** the customer's message. Word for word only.
- If a situation becomes emotionally complex, the team member **completes the defined delivery and exits professionally.**

Gift Delivery with Prepared Message

DIASPORA MINDSET

"I want to send something meaningful, not just money. I want it delivered personally, with my words."

WHAT MKONO DOES

- Sources or receives the gift from client
- Delivers to the recipient in person
- Reads the customer's prepared message exactly
- Photographs the delivery moment
- Collects confirmation from recipient

MISSION & VALUES CONNECTION

Sending money feels transactional. Sending a gift with a personal message, delivered by hand, feels like presence. This service honours **Protect the Relationship, Not Just the Transaction** at its deepest level. The diaspora customer is not paying for a delivery. They are paying to show up — in the only way that is possible from thousands of miles away.

WHY DIASPORANS WILL PAY

No app currently does this with dignity and proof. The combination of in-person delivery, personal message, photography, and evidence of receipt is uniquely Mkono Global.

Team reads only what the customer has written. Nothing added.

Evidence: Photos, video of delivery, recipient WhatsApp confirmation.

Graduation Attendance & Photography

PARENT MINDSET

"My child is graduating and I cannot be there. I want someone to represent me, deliver my gift, and bring me photos."

WHAT MKONO DOES

- Attends the graduation ceremony
- Delivers gift and prepared message
- Photographs key ceremony moments
- Represents the parent professionally
- Returns with full photo and video evidence

MISSION & VALUES CONNECTION

Missing a child's graduation is one of the deepest regrets diaspora parents carry. This service gives the parent something they cannot get any other way — a record of their presence through someone they trusted with one of the most important moments in their family's life. **Protect the Relationship, Not Just the Transaction.**

WHY DIASPORANS WILL PAY

The emotional weight of this service is enormous. A parent who missed a graduation because they could not afford the flight will pay for professional representation without hesitation — because the alternative is simply not being there at all.

Team represents only. No improvisation beyond the defined brief.

Evidence: Photos, video, confirmation from graduate.

Birthday & Anniversary Delivery

DIASPORA MINDSET

"My mother turns 70 next week. I want flowers, a cake, and a letter delivered to her door on the day."

WHAT MKONO DOES

- Sources flowers, cake, or arranged items
- Delivers on the specified date and time
- Delivers prepared message or letter
- Photographs the moment
- Collects recipient confirmation

MISSION & VALUES CONNECTION

Distance has taken many things from diaspora Kenyans. The ability to show up for a parent's milestone birthday should not be one of them. This is one of Mkono Global's most human services — and one of the most directly aligned with the vision of ending the 2am silence by replacing it with proof of care.

WHY DIASPORANS WILL PAY

The emotional value far exceeds the service fee. A 70th birthday is once in a lifetime. A parent who knows their child arranged for flowers and a letter from the USA despite the distance will feel that care in a way no wire transfer ever communicates.

Team delivers only what was prepared. No improvisation.

Evidence: Photos, video, recipient WhatsApp confirmation.

Wedding Gift Delivery & Speech Reading

DIASPORA MINDSET

"My cousin is getting married. I cannot attend. I want to deliver a gift and have my message read at the celebration."

WHAT MKONO DOES

- Delivers the gift at the appropriate moment
- Presents flowers or arranged items
- Reads the customer's prepared speech exactly
- Photographs the delivery and moment
- Returns with evidence of attendance

MISSION & VALUES CONNECTION

Weddings are sacred in Kenyan culture. Absence is felt deeply — by the person abroad and by the family at home. Professional, dignified representation honours both. The Mkono team member reads only what was written, delivers only what was prepared, and photographs only what was agreed. **Dignity at every step.**

WHY DIASPORANS WILL PAY

The guilt of missing a family wedding is real and lasting. Being represented with dignity — a gift delivered, words spoken, presence acknowledged — is worth far more to the customer than the service fee.

Team reads only what the customer has written. Nothing added or improvised.

Evidence: Photos, video, confirmation from couple or family.

VALUES CONNECTION

How Every Pillar Reflects Who We Already Are

1 Proof, Not Promises

2 Health Before Budget

3 Every Shilling Accounted For

4 Verify Before You Pay

5 Reliability Over Speed

6 Use What Already Works

7 Protect the Relationship, Not Just the Transaction

WHY THESE SERVICES ARE NOT A DEPARTURE FROM MKONO GLOBAL'S IDENTITY

Every Premier Decision Support service ends with **objective evidence** — Value 1. Every service keeps every shilling traceable — Value 3. Intelligence and Verification applies **Verify Before You Pay** — Value 4. Every Representation service is built around **protecting the relationship** — Value 7. The entire framework uses existing Kenyan infrastructure — **Use What Already Works** — Value 6. Nothing about these services requires Mkono Global to become a different company. They require Mkono Global to be exactly the company it already is — in more situations, and one step earlier in the customer's journey.

EXECUTE. VERIFY. PROVE.

These are not new services.

They are new expressions of the same promise.

The customer still makes every important decision.

Mkono Global simply ensures those decisions are made with certainty — and that the moments that matter are honoured with dignity and evidence.

Not a promise. Evidence.
